

## **MOTORSPORT CAN BE DANGEROUS**

1. I have no physical or mental condition that would compromise the safety of myself or others.
2. Buggy Racing is a non contact sport. Anyone found to be driving in a dangerous or negligent manner will be removed from the circuit without refund or further admittance.
3. The track is marked out with the occasional use of barriers and tyres. These are merely for course guidance. Any driver found to be purposely driving into the barriers and tyres will be removed from the circuit without refund or further admittance.
4. I understand the correct use of the pedals, gear shift and change light and any inappropriate use of the above will or may involve me being removed from the track without refund or further admittance.
5. I know where the ignition switch is should I have any reason to switch off the engine.
6. I understand that I am only allowed to enter the pits area from the spectators area shortly before and after a race having been advised to do so by the event organiser.
7. I am aware that I must wear a helmet correctly with the visor down, have my harness securely fastened and wear the wrist straps and gloves at all times whilst driving the race buggy.
8. I understand not to touch the exhaust and any area to the rear of the driving seat which may be hot.
9. I am aware that I should not get out of, nor place my hands or legs out-side of the race buggy at any time. Marshalls are there for my safety and must be obeyed. I understand that I will be removed from the track without refund or further admittance should I choose to ignore the instructions given by the Marshalls.
10. I understand the direction in which to drive, and where the pit entrance is for the end of my session. I am aware that I must slow down to walking pace before entering the pits and pay particular attention to any other buggy position on the track at this time.
11. I understand that the bridge is merely for enabling me to cross over/under the other track. I will approach the bridge area in 1<sup>st</sup> gear only and will slow right down to walking pace whilst on or under the bridge. Failure to slow down as directed in the bridge area and in the Pits will result in me being removed from the track without refund or further admittance.
12. I understand all flags for the race events.
13. I have not consumed drugs or alcohol before or during the session.
14. I confirm that should I cause damage to any of the buggies due to my negligence in complying with the above mentioned rules then I will be removed from the track without refund or further admittance and UK Rallysprint Ltd. ("the Company") reserve the right to charge me for any damage to the buggy.
15. I am aware that if I cause the buggy to be temporarily out of action due to my driving ability and it is necessary for the Marshalls to recover the buggy then my race will end and not be re-raced.
16. I understand that as this is a motor-sport event occasionally it may not be possible to complete my full race session due to buggy breakdown. Should this be the case and I haven't been previously disqualified from my race session then I will be refunded £15 per race that I haven't completed and £5 for the practice lap if applicable.
17. I realise that it is hard to confirm a precise time scale for my race session given the nature of the event which is dependent upon the driving ability of all persons racing on a particular day and also weather conditions. Should I decide to leave the event early then I will not receive a refund for any races which I have decided not the race. Any outstanding races are not transferable.
18. I am aware that there are different types of buggies owned by the Company and my races are to be completed in any buggy made available to me by the Company. I further understand that my ability in driving the buggy will be assessed by the event organisers during my practice lap and races and it may be necessary for them to dictate that my races be taken in one particular buggy.
19. During the race session I must be present in the spectators area so that I am able to hear the event organiser informing me that it is my turn to race. Should I not be present then I am aware that I will forfeit that particular race.
20. I understand that I must comply with the rules contained in this disclaimer and any failure to do so which may result in bodily injury to myself or others will be my responsibility and I will make no claims against the Company in this respect.
21. Once my race session is concluded I will put my race suit, race helmet, helmet liner and gloves back into the changing room area.

## **I HAVE LISTENED TO AND UNDERSTOOD ALL THE RULES AND SAFETY ADVICE GIVEN TO ME DURING THE BRIEFING**
